**Předmět:** Data on complaints related to Turnitin

---

Hi there,

I'm writing a report on formal challenges to the use of Turnitin in higher education institutions worldwide. Could you please share data on the number of complaints or other formal challenges submitted to or via your office by students related to Turnitin's use?

I'm looking for annual aggregates since 2005, but if you can only provide this data for the past decade or since 2020, or even if only over the past year, I would still appreciate that. Any data would help.

If you publish this data online or in a report, please send me the links and I'd be happy to tally the numbers myself.

I would need this data before the end of the year and would be very grateful if you can get back to me before then.

Thank you very much for your time, and happy holidays!

Best,

[REDACTED]
